ANISH KUMAR MONINGI

Visakhapatnam, India 530026 • +919056559234 • moningianish@gmail.com

Professional Summary:

Full Stack Developer | Frontend Specialist | 5+ Years Experience Angular
React | TypeScript (ES6) | JavaScript| REST APIs
Proficient in building scalable web applications with optimized performance and seamless API integration. Experienced in end-to-end development of enterprise solutions with a focus on user experience and code efficiency.

Skill's:

Frontend: Angular (v12+), React, JavaScript, TypeScript, HTML5, CSS3, Material UI, RxJS, Bootstrap, Tailwind

Backend: ASP.NET Web API, Node.js, REST API Development

Database & Tools: SQL, Git, Azure DevOps, CI/CD pipeline, Visual Studio

Testing: Unit Testing, E2E Testing

Professional Experience:

RSK Business Solutions – Software Engineer | Jan 2022 – Present

- Developed **Angular 12+** applications using **RxJS** best practices and lazy loading techniques**, improving code efficiency by 60%** through reduced bundle size and enhanced performance.
- Designed **reusable Material UI components** accelerating **feature delivery 30%.**
- Created **reusable chart components (amCharts5**) for data visualization dashboards with 10k+ active users.
- Optimized Webpack configuration and applied **tree-shaking techniques**, **reducing bundle size by 45%** and enhancing application performance.
- Designed and integrated **scalable RESTful APIs** using **ASP.NET Core** with **modular architecture**, ensuring seamless data exchange and future-proof maintainability.
- Developed '**Lighthouse**,' an IT services control application that facilitates remote support and seamless machine enrolment into cloud environments.
- Developed '**Poseidon**,' a security-based application which scans and monitors client environments, including **Office 365** and **Active Directory**.

Mobiloitte – Junior Software Engineer | July 2020 – Dec 2021

- Developed **high-performance SPAs** using **Angular** and **React**, achieving **85% Lighthouse scores** and boosting **customer engagement by 30%**.
- Integrated **RESTful APIs** using **node.js**, organizing integrations into **modular structures** for **scalability**.
- Maintained **dynamic single-page web applications** (job seeker platforms, cryptocurrency dashboards) with **responsive designs** and **seamless user experiences**.
- Architected '**Blue Contractor**' application, recruitment platform, enabling efficient management of user and client profiles by integrating **Google Maps API** and **role-based authentication**.
- Ensured **cross-browser compatibility** and optimized performance for a smooth user experience.

Education:

Bachelor of Technology (B. Tech): Computer Science, 04/2020

Lovely Professional University - Jalandhar, India

Certifications:

- Full Stack Certification, 2024 (100xDevs)
